

**Network Talking Points for Providers**  
**July 27, 2015**

- As you know, the NC General Assembly is considering a major overhaul of Medicaid reform.
- It's not yet clear what form the changes to Medicaid will take but change is certain.
- CCNC and our care management strategies have saved North Carolina taxpayers millions while improving quality of care.
- You have been an important partner in that effort and we need your help to make sure that those strategies continue.
- Please call your legislators and tell them you support CCNC and the medical home model for controlling Medicaid costs.
- Here are some ideas for what to say:
  - Thank you for your service to NC. I am a doctor in your district and our practice serves *xxx number of patients, including xxx Medicaid patients*.
  - We know that the General Assembly is considering a number of options for reforming the Medicaid program.
  - Please ensure that North Carolina's Medicaid system remains patient-centered and provider-led. CCNC has saved NC taxpayers millions of dollars and can continue to do so as we move to a reformed Medicaid system.
  - Please maintain NC's current Medicaid management through the transition to reform and ensure that any new plan uses the proven "physician-driven medical home" model.
  - Doing so will prevent costs from exploding during the transition to a new Medicaid system.
  - Please tell the legislative leadership that you support Community Care as the best way to contain Medicaid costs during the transition to a reformed system.
  - Please feel free to contact me at *email* or *phone*, if I can be of any further assistance or if you have any additional questions.
  - Thank you!
