

The Pharmacy Locator is a tool developed for Community Care of North Carolina to communicate to care managers, medical providers, and other partners regarding which pharmacies are participating in the NC Community Pharmacy Enhanced Services Network (CPESN) and what types of enhanced services are offered at each location. Based on the information provided in the pharmacy locator, a user can identify which local pharmacies offer the type(s) of services needed by a particular patient.

How to View Participating Network Pharmacies:

A user can view the North Carolina CPESN pharmacy coverage at <https://www.cpesn.com> by selecting the “Locator” Option. Options exist to view pharmacies in the **List view** or a **Map view**. When searching by the pharmacy List view, a user may sort the pharmacy list by selecting from the drop-down list **(A.)** found in the List view by four options: Pharmacy Name, County, City or Distance the pharmacy is from the user's location. While in List view, the following pharmacy demographics will be shown: **Pharmacy Name, Address, Phone/Fax numbers, and a URL if the pharmacy has a website available**). By clicking on the pharmacy name **(B.)**, a user will be able to see additional demographics (hours of operation, services provided) and the ability to share the content by text or email.

When searching by the Map view, a user may select a Pin-Drop **(C.)** found closest to the proximity of the user's location. Once a Pin-Drop is selected a user will be able to see additional demographics and the ability to share the content by Text or Email.

How to Find Participating Network Pharmacies That Offer Specific Enhanced Services:

When using the application independently or in a patient care setting, the user can identify specific enhanced service needs and search for a pharmacy or pharmacies nearest to a given location, such as the patient's home. The locator's Home view will identify immediately the top optional services needed

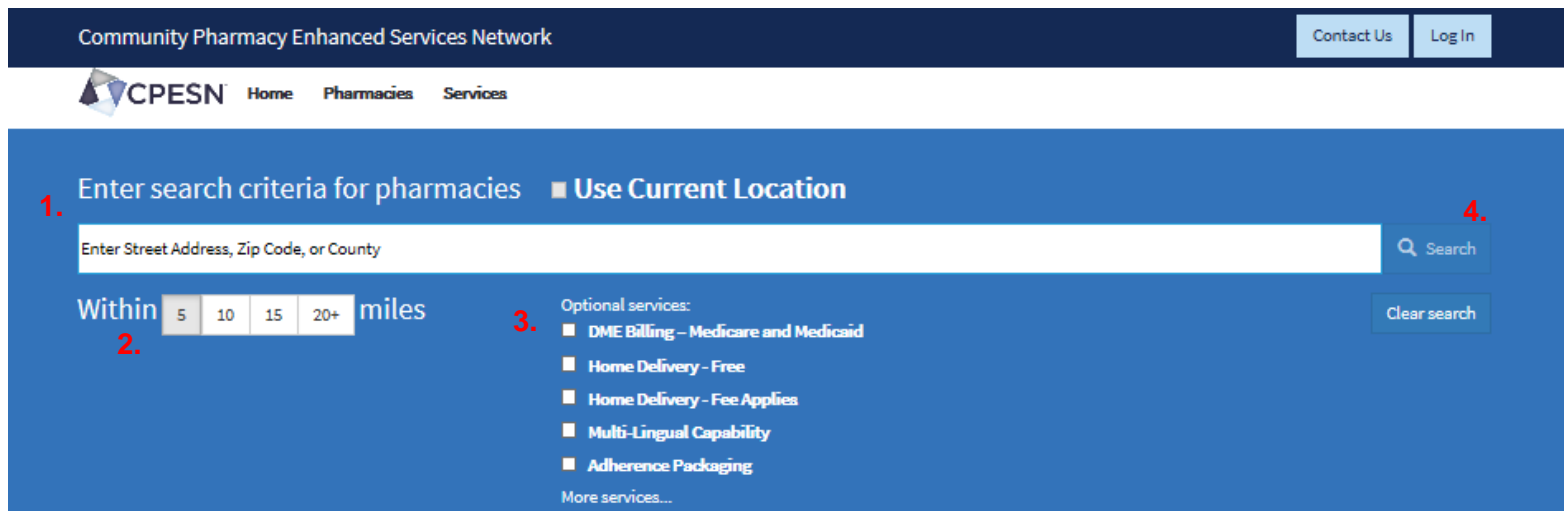

How to find your needed service?

Step 1. Enter the best Street Address, Zip Code, or County

Step 2. Select how broad the geographic search should be: within 5, 10, 15, or 20+ miles from the Street Address, Zip Code, or County entered.

Step 3. Select from the most frequently selected enhanced services that fit your needs. If additional selections are needed you can select them from the "More Services" list to view a comprehensive list of services to narrow your pharmacy search. (*Check all that apply.*)

Step 4. Select "Search" to locate pharmacies that meet your services and location or "Cancel Search" to begin your search again.

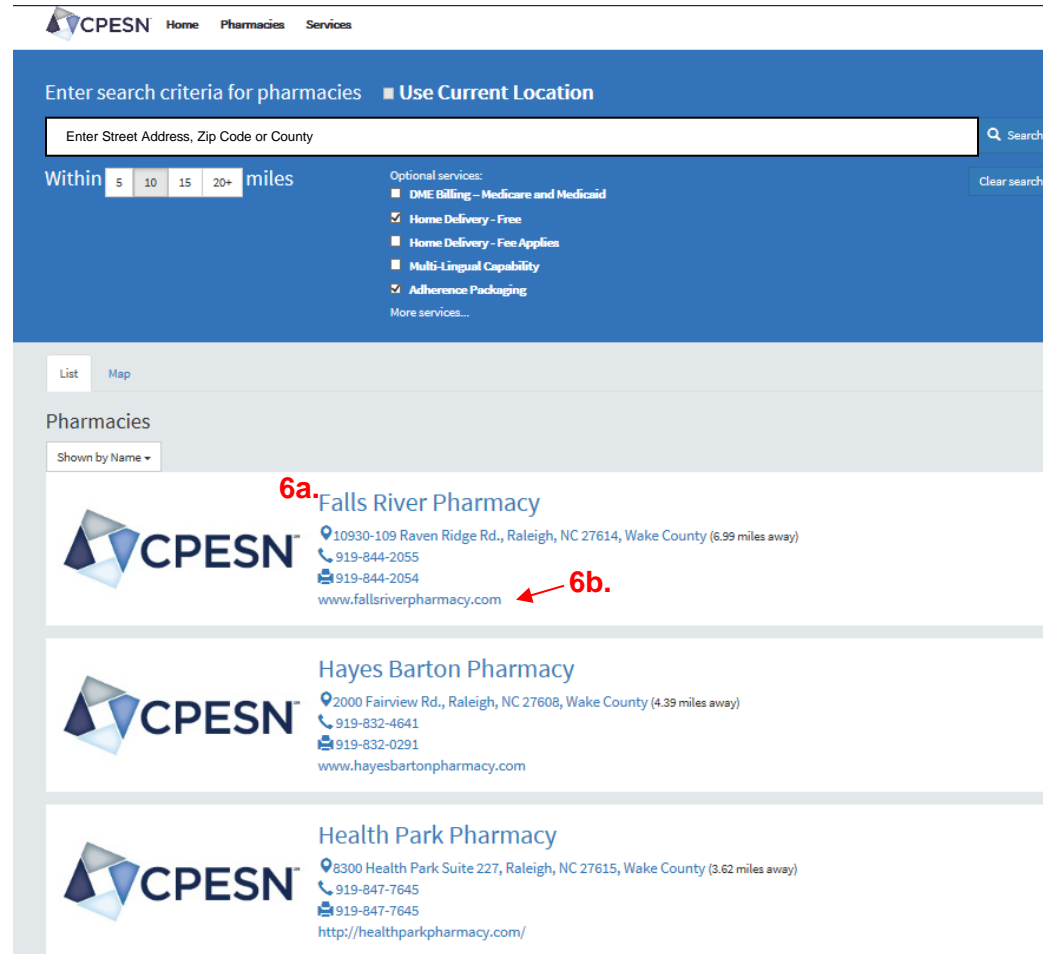

The screenshot shows the CPESN Pharmacy Locator search interface. At the top, there is a dark blue header with the text "Community Pharmacy Enhanced Services Network" and two buttons: "Contact Us" and "Log In". Below the header is a navigation bar with the CPESN logo and links for "Home", "Pharmacies", and "Services". The main content area is a blue box with the following elements:

- 1.** "Enter search criteria for pharmacies" with a radio button for "Use Current Location".
- A search input field with the placeholder text "Enter Street Address, Zip Code, or County".
- 2.** "Within" followed by four buttons: "5", "10", "15", and "20+", followed by the word "miles".
- 3.** "Optional services:" followed by a list of checkboxes:
 - DME Billing – Medicare and Medicaid
 - Home Delivery - Free
 - Home Delivery - Fee Applies
 - Multi-Lingual Capability
 - Adherence PackagingBelow the list is a link for "More services...".
- 4.** A "Search" button with a magnifying glass icon.
- A "Clear search" button.

Selecting Pharmacies That Meet Your Need

Step 6. Select the name of the pharmacy of choice (**6a.**) to view all services provided and additional pharmacy information. You may also open the provided website of the pharmacy (**6b.**) for additional information.
