

**All North Carolina Faith Leaders are Cordially Invited to**

***The Interfaith Health Summit***

***"Building a Bridge of Faith to Health in North Carolina"***

*Every day, faith ministries across North Carolina are raising donations and praying for the sick and needy in their communities. Treatment and ongoing care can seem impossibly expensive and complex. Many new health options are available to families and individuals. This summit will explore how the faith community can best help community members navigate new systems of health insurance coverage and care.*

*The Interfaith Health Summit will be a day full of information on how your congregation and organization can engage this year on Health Care Access for North Carolinians. Pastors, Faith Leaders, Social Justice Ministries, Health Ministry, Divinity Students and more are encouraged to be part of this Summit. Help us build the faith to healthcare bridge.*
